

A black and white photograph of a 3D-printed mechanical part, likely a bracket or support structure. The part is shown from a perspective view, highlighting its internal features and the texture of the printed material. A scale bar in the bottom right corner indicates a length of 500 μm. The part has a complex, multi-faceted design with several rectangular cutouts and a central vertical slot. The overall shape is somewhat rectangular with rounded edges and a central vertical feature. The surface appears slightly rough, typical of 3D printing. The scale bar is labeled "500 μm" and "BA" below it.
